

Focus Blue Light

- + REDUCES GLARE SENSITIVITY*
- + IMPROVES MACULAR* HEALTH*
- + SUPPORTS EYE FUNCTION*

AVAILABLE IN
MANGO FLAVOR

ACTUAL SIZE

Helps protect eyes from digital devices, blue light, and eye fatigue

Focus Blue Light formula is a natural filter of high energy blue light from digital devices, natural and artificial lighting (indoor and outdoor). This formula promotes healthy eye function by increasing macular pigment in the eye, and improves contrast sensitivity and glare to help the eyes quickly recover after use.

Focus Blue Light increases the protective layer of the eye called the MPOD by filtering high energy blue light. It is clinically proven to support clear, detailed vision in bright light and naturally comforts fatigued eyes from blue light and device use. Our formula is vegan friendly, with no animal products or byproducts and is proudly made in the US.

NATURAL COMFORT

Our formula comforts strained eyes from digital device use.

TRUSTED CHOICE

Made in an NSF-certified and GMP-compliant facility.
